« *IP Paris Fast-Track Admission Procedure* »:

Institut Polytechnique de Paris steps up to ensure continuity for students pursuing excellence

Palaiseau, July 18, 2025 – Institut Polytechnique de Paris (IP Paris) is launching an exceptional fast-track admission pathway for international students facing visa restrictions, administrative delays, or other challenges affecting their plans to study in the United States.

In response to growing uncertainty around visa approvals and various administrative barriers for international students admitted to top U.S. universities, Institut Polytechnique de Paris (IP Paris) is implementing an exceptional fast-track admission procedure: “***IP Paris Fast-Track Admission Procedure***”.

This initiative targets international students admitted to a Master’s or PhD program at a U.S. university ranked among the global Top 50 (according to QS, Times Higher Education or Shanghai Ranking) for the 2025–2026 academic year, who may be unable to travel to the United States due to visa delays, revocations, or other administrative obstacles.

« IP Paris aims to provide a swift and rigorous solution for international students facing administrative hurdles beyond their control. This initiative is fully aligned with our mission to promote openness, scientific excellence, and the welcoming of global talent. »

– **Thierry Coulhon**, President of Institut Polytechnique de Paris ».

A commitment to openness, inclusion, and excellence

Through *IP Paris Fast-Track Admission Procedure*, IP Paris reaffirms its commitment to open science, world-class education, and expanding access to higher education for outstanding students from around the world.

Practical Information

Students wishing to apply through this fast-track procedure must submit a complete application file, including all required documents in French or English (or accompanied by an official translation).

Applications will be reviewed based on:

- Verification of eligibility criteria (admission to a university ranked in the global Top 50 according to QS, THE or Shanghai Ranking).
- Evaluation by a dedicated academic committee.
- Enrollment capacity in Master's or PhD Track programs at IP Paris and its member schools.

All information and application guidelines are available on the official website: <https://www.ip-paris.fr/en/fast-track-admissions>

About Institut Polytechnique de Paris

www.ip-paris.fr

Institut Polytechnique de Paris (IP Paris) is a French public institution for higher education and research that brings together six prestigious engineering schools: École Polytechnique, ENSTA Paris, École des Ponts (ENPC), ENSAE Paris, Télécom Paris, and Télécom SudParis. Together, they combine their expertise to offer world-class training and conduct cutting-edge research.

With this unique academic and scientific foundation, IP Paris stands out as a major player in science and technology, both in France and internationally.
